

Abstract

Title: Comparison of presence and efficiency of pick-and-roll in particular ŽBL teams

Objective of thesis: The aim of the Bachelor's thesis is to analyze a presence and efficiency of pick-and-roll in two particular teams, participants of first-tier Czech women basketball league. I am going to assess and compare presence and efficiency from selected games of Hradec Králové and VŠ Praha.

Methods: This thesis was based on methods of secondary data collection - *Secondary statistical analysis and direct observation with data recording.*

Results: There was a 5,81 % lower presence of offensive pick-and-rolls in the team Hradec Králové than in the team VŠ Praha. Team VŠ Praha was 4,31% more effective in pick-and-rolls.

Key words: Basketball, Women's basketball league (ŽBL), combination based on screening, game situations
